Dear Ed, Thanks for the generous mailing with your note of the 2d. I went over it to put into the folder I read when I can. I note the first page of the Village Voice Colson ~~article~~ article, p. 10, is not included. I am much interested in him if that part backed on something you were saving. This Nixon-Baker-Colson-papers operation is more than the usual Nixonian Byzantine approach. It is quite daring unless one assumes, as they must, that the press is as corrupt as it is timid, for they are off on a garguantuan misrepresentation/deception/selective use deal that for the most part I've already written about. But with an honest and not cowardly ly press what they have done/are doing would kick back hard.

Best, HW 7/5/74
